REMARKS

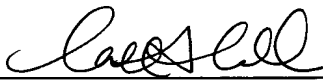

A review of the specification and claims post receipt of the Notice of Allowance and Fee(s) Due form revealed the need for further amendment to the claim language. Specifically, Claims 23 and 26 require minor amendments to provide consistent claim terminology. Accordingly, since the amendments relate to matter of form only and do not require further search or consideration by the Examiner, Applicants respectfully request that the amendments be entered and, further, solicit a Notice to that effect.

Respectfully submitted,

JASON M. O'KRANGLEY AND
DAVID M. KRUITHOFF
